when immigrants leave their home country to live in a host country that has a different culture the acculturation process begins there is subtle cultural social and political pressure on immigrants to adopt the cultural values of the host nation the acculturation process occurs over time exposure to a new culture is often stressful as one is exposed to new values beliefs and behaviors that may be different from their home culture strategies for cultural assimilation of immigrants and their children social economic and political considerations increases awareness of the cultural assimilation process among parents children employers and educators this book discusses internal conflicts and promotes harmony and understanding covering topics such as civic literacy mental health and identity formations this premier reference source is an excellent resource for sociologists psychologists government officials educators and administrators of both k 12 and higher education students of higher education librarians researchers and academicians

for too long now the issue of health care reform has been dominated by the techniques of mainstream economics and the constant application of the tools of cost benefit analysis to an area that does not suit it issues such as privacy genetic testing and the allocation of organ transplants require a more sensitive approach to the setting of budgets

academic paper from the year 2022 in the subject history of europe colonialism language english abstract this paper tries to show the socio economic origins of neocolonialism and the african states response since 1960 this research employs a qualitative study based on a careful examination of books pertinent published journal articles and other works that have been consulted cross checked and reinterpreted the outcome demonstrates that since the 1960s former colonial powers have sought to maintain their former position of agricultural product and raw material attachment with newly independent african states finally some african state leaders such as nkrumah nyerere milton obote and others provided an exemplary response to the expansion of neocolonialist powers in africa by focusing on a

thorough explanation of dependency theory and advising african leaders to fight neocolonialists in the economic sphere and they began cooperation by holding conferences and signing an agreement to combat neocolonialism

the aim of the book is to argue for the restoration of theoretical and practical reason to economics it presents nancy cartwright and amartya sen s ideas as cases of this restoration and sees aristotle as an influence on their thought it looks at how we can use these ideas to develop a valuable understanding of practical reason for solving concrete problems in science and society cartwright s capacities are real causes of events sen s capabilities are the human person s freedoms or possibilities they relate these concepts to aristotelian concepts this suggests that these concepts can be combined sen s capabilities are cartwright s capacities in the human realm capabilities are real causes of events in economic life institutions allow us to deliberate on and guide our decisions about capabilities through the use of practical reason institutions thus embody practical reason and infuse certain predictability into economic action the book presents a case study the undp s hdi

contains papers that appeal to a broad and global readership in all fields of economics

this collection of seven essays a project of the association for social economics challenges the conventional paradigm of mainstream economics which rejects human need as a viable concept and seeks to establish a new paradigm grounded in human material need under its two distinct aspects physical need and the need for work as such in the introduction john b davis maintains that mainstream economic theory denies that needs can be distinguished from wants and so does not recognize the importance of this dimension of economic life he argues that it is virtually impossible to discuss the economy without addressing the individuals families and communities whose needs go unmet and who thus become the focus of social and economic policies the contributors establish in their essays a philosophical and methodological foundation to explain the nature of need and its centrality to economics they present a new socioeconomic paradigm based on human material need which is presented in the context of the three principles that organize economic affairs competition cooperation and intervention and which is

underlaid by the social values of freedom community and equality essayists strive to incorporate the duality of human nature the recognition that every human being is at once an individual and a social being in their definition of human physical need and the need for work they further address unmet individual material need through private and public sector remedies the essays include need as a mode of discourse by warren j samuels the person and the social economy needs values and principles by peter l danner human physical need a concept that is both absolute and relative by edward j o boyle government participation to address human material need by anthony e scaperlanda the need for work as such self expression and belonging by edward j o boyle social management and the self managed firm by severyn t bruyn and reconstruction of mainstream economics and the market economy by john b davis and edward j o boyle

unesco pub compilation of writings presenting the range of issues involved in the process of social change and economic development discusses topics such as population trends family planning attitudes migration urbanization human resources the impact of science and technology entrepreneurship the mass media cultural factors economic integration economic aid political aspects of national planning etc references and statistical tables

showcasing fuzzy set theory this book highlights the enormous potential of fuzzy logic in helping to analyse the complexity of a wide range of socio economic patterns and behaviour the contributions to this volume explore the most up to date fuzzy set methods for the measurement of socio economic phenomena in a multidimensional and or dynamic perspective thus far fuzzy set theory has primarily been utilised in the social sciences in the field of poverty measurement these chapters examine the latest work in this area while also exploring further applications including social exclusion the labour market educational mismatch sustainability quality of life and violence against women the authors demonstrate that real world situations are often characterised by imprecision uncertainty and vagueness which cannot be properly described by the classical set theory which uses a simple true false binary logic by contrast fuzzy set theory has been shown to be a powerful tool for describing the multidimensionality and complexity of social phenomena this book will be of significant interest to economists statisticians and sociologists utilising quantitative methods to explore socio economic phenomena

the eu has experienced serious economic and political crises such as the sovereign debt crisis and brexit in the past few years however despite these issues the eu has implemented considerable institutional fiscal and collective improvements during the unification process to continue as a significant actor in the global economy the handbook of research on social and economic development in the european union provides a multidisciplinary evaluation of the institutional economic and social development of the european union and makes inferences for the future dynamics and collaborations of the eu the global economy and other countries featuring coverage on a broad range of topics such as energy security gender discrimination and global economics this book is ideally designed for government officials policymakers world leaders politicians diplomats international relations officers economists business professionals historians market analysts academicians researchers and students concerned about the multifaceted integration processes surrounding the eu

examines indian gaming in detail what it is how it became one of the most politically charged phenomena for tribes and states today and the legal and political compromises that shape its present and will determine its future

this book positions the social economy conceptually and normatively with the help of case evidence from a number of developed and developing countries uniquely it brings together in english the work of leading scholars of the social economy who are also actively engaged in national and international policy formulation

a unique analysis of the moral and social dimensions of microeconomic behaviour in developing countries this book calls into question standard notions of rationality and many of the assumptions of neo classical economics and shows how these are inappropriate in communities with widespread disparity in incomes this book will prove to be essential for students studying development economics
